

INTRODUCTION FOR THE DEVELOPER

The goal of this section is to create the “**Training Accounting Report and Individual Signature Sheet**” module related to users’ e-learning courses.

The system must allow **Level 3 and Level 4 users** to:

- View a complete report of each user’s training and attendance data directly from their dashboard.
- Verify and, if necessary, manually correct any inconsistencies in the pre-filled data (through a “manual override” mode);
- Confirm the corrected data and download the report in **PDF format**, in an official version ready for **training accounting or document archiving**.

All main data (course title, company, user’s name, CIG/CUP/CIP codes, duration, type, etc.) must be **automatically filled in by the system**, pulling information already present in the database at the time of the course creation and publication by Level 3 and Level 4 users.

The module must also include:

- A **summary section** of the activities carried out (modules, subjects, video lessons, tests, satisfaction questionnaires, certificates) with corresponding times, completion status, and scores;
- A **clear logical and visual structure** between the main module and related subjects/topics
- An **automatic course completion verification system** and total learning time calculation;
- A **standardized PDF structure**, consistent with the traceability and reporting requirements for compliant training (**Legislative Decree 81/08 and State-Regions Agreement**).

TRAINING ACCOUNTING REPORT AND INDIVIDUAL SIGNATURE SHEET – USER E-LEARNING TRAINING

The report must first be viewable on the dashboard of Level 3 and Level 4 users, where they can check that all information is correct. If any data is incorrect, there must be an option to manually override and edit the information. Once verified, users can confirm the data and download the report in PDF format.

TITOLO PIANO FORMATIVO¹	
ID PIANO FORMATIVO²	
ID AZIONE FORMATIVA³	
TITOLO INTERVENTO FORMATIVO⁴	
AZIENDA DI APPARTENENZA⁵	
COGNOME⁶	
NOME⁷	
CODICE FISCALE⁸	
DATA DI NASCITA⁹	
DATA INIZIO CORSO¹⁰	
DATA FINE CORSO¹¹	
CIG¹² <i>Codice Identificativo Gara</i>	
CUP¹³ <i>Codice Unico di Progetto</i>	
CIP¹⁴ <i>Codice Identificativo di Progetto</i>	
TIPOLOGIA¹⁵	
DURATA minuti¹⁶	

^{1,2,3,4,5,6,7,8,9,10,11,12,13,14,15,16} It must automatically retrieve the data already entered at the time of the course purchase (the data pre-filled by Level 3 and Level 4 users when they created, published, and added the course to the catalogue that is the subject of the report). These data are already available to Level 3 and Level 4 users within the "Create Course" function. Sometimes, system bugs may occur, causing incorrect information to appear in the table above. Therefore, there must be a manual override mode, allowing Level 3 and Level 4 users to manually edit and enter the correct data as deemed appropriate.

ATTENTION!!!! Do not include in the module the text written for you that serves only to explain what we want you to add to the module. Therefore, **do not include any text highlighted in red.**

Afterwards, we would like this section to appear in the report:

¹ Modulo: ***La percezione del rischio***

² Materia/Argomento	Attività svolta	Stato	Primo accesso	Primo completamento	Tempo completamento
³ E.g. Le figure del sistema di prevenzione aziendale	⁴ Videolezione	⁵ Completato	⁶ 20/03/2024 15:18:52	⁷ 20/03/2024 15:29:34	⁸ 000:10:42
.....					
.....					
.....					
.....					

The field labeled **"2Materia"** should be visually and structurally treated as a **subsection** or **subtopic** of that main title **"1Modulo"** — like how a **subchapter** fits within a chapter. It refers to the specific subjects or themes covered within that module.

Make sure the hierarchy is clear in the layout and that the user can easily understand the relationship between the main topic and its related "**2Materia**".

³ The name of the file we uploaded must appear. For example: the SCORM file we saved is called “Le figure del sistema di prevenzione aziendale”. Therefore, in the “Subject/Topic” section, “Le figure del sistema di prevenzione aziendale” must appear.

⁴ It must display the items we would upload as files during the course creation process (Video lesson, Test, Video, Presentation, Downloadable materials), and they must be written in **Italian**, exactly as they appear in the original file you just translated.

5 The word “**Completato**” (**Completed**) must appear only when the learner has viewed all the material (for example, a SCORM file) before moving on to the next item. In other words, it should reflect what you have shown in the syllabus dashboard as “**100% progress.**”

⁶ Date and time of material opening and course start.

⁷ Date and time of completion of the “Subject/Topic”.

⁸ The total time the learner took to complete the course.

After that, the chapter will always include the intermediate test called: **“Test a risposta multipla”**. (in italian please)

¹**La percezione del rischio – Test finale**

²Data ed ora di accesso al test: 18/03/2024 19:04:09

³Punteggio ottenuto: 90 %

⁴Tempo totale impiegato nel test: 00:07:21

¹ It is the name of the main module/chapter we mentioned earlier, “**La percezione del rischio**”.

² Date and time of test access

³ The score obtained by the learner. It must be a **percentage score**. If the total number of questions is 10 and each question is worth 10%, then if the learner answers 9 out of 10 correctly, they have achieved **90%**. You must create a mechanism that **tells the learner whether they have passed the test or not** (e.g., “a text box with feedback after submitting the test”). You must also allow the learner to **retake the test an unlimited number of times**. We usually use **multiple-choice tests** with about **3 possible answers** per question.

⁴ The time taken to complete the test and submit it using the “submit” button

¹**Valutazione del gradimento**

²Data ed ora di accesso al questionario: 18/03/2024 19:04:09

³Gradimento assegnato: 60 %

⁴Tempo totale impiegato per esprimere il gradimento (*non conteggiato ai fine della durata del corso*): 00:07:21

¹Each course will include a final satisfaction questionnaire for participants, which will tell us whether we've done a good job.

²Date and time of access to the questionnaire

³The score/percentage of the satisfaction questionnaire

⁴The time taken to complete the satisfaction questionnaire and submit it using the "submit" button.

¹**Attestato**

Scaricato il: 21/03/2024 alle ore: 11:24:58

²**Verbale di riepilogo del corso**

Scaricato il: 21/03/2024 alle ore: 11:24:58

¹It will indicate that Level 1 and Level 3 users have logged in to download it.

²It is this file you are reading that was downloaded, including the exact time of download.

¹**Tempo totale impiegato per il corso:** 009:22:10 ore

¹Here, the total number of hours spent completing the various modules, subjects, and tests will be summarized.

¹**Il partecipante**
(per accettazione e conferma)

¹It is a space dedicated to the learner's signature, confirming acceptance and acknowledgment of having completed the course in compliance with all requirements.
